

Field Service+

for Microsoft Dynamics 365 Field Service

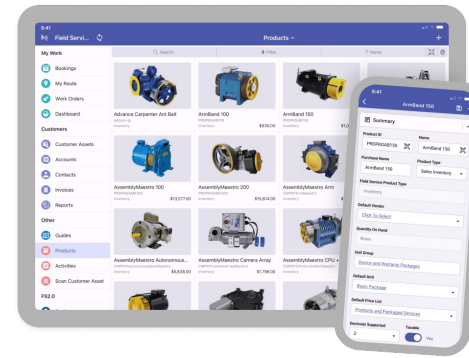

Empower your field service with mobility and reliability

Resco's mobile solution streamlines your field service operations with offline work, fast data sync, and powerful tools for frontline workers, all natively integrated into Dynamics 365.

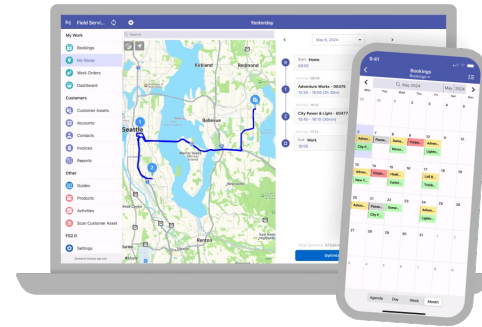

Stay productive, even offline

Equip your mobile workers with unmatched offline capabilities. Let your field teams complete work orders, capture data, and maintain productivity even without a signal. Ensure seamless field service no matter the connectivity.

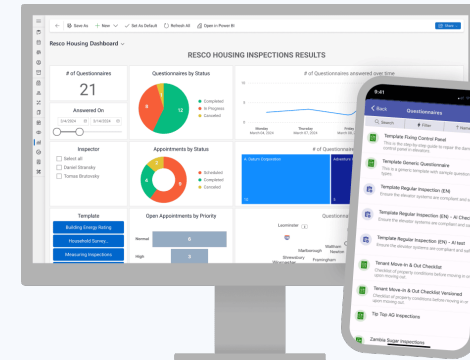

Transfer data quickly and reliably

With Resco, you sync data up to 10 times faster than alternatives, making field updates instantaneous and reliable. The mobile-first design ensures a smooth user experience on any device and platform – be it iOS, Android, or Windows.

Simplify the field work for technicians

Advanced mobile forms, questionnaires, and reports equip your technicians for success. Capture data, photos, and signatures with ease. Ditch traditional paperwork and automate your reporting processes to save time and reduce errors.

Turn data into action

With custom dashboards from Resco, paired with full Microsoft Power BI integration, you'll extract more insights and make smarter business decisions from the field. Simplify reporting and integrate your mobile solution with your existing tools.

The same core functionality in the field and in the office

- Mobile forms and questionnaires
- Work order management
- Scheduling and dispatching
- Route optimization
- Reporting and analytics
- Accounting and billing
- Time management
- Digital signature
- Photo tags, AI image recognition

“Our employees reported that they are extremely happy with the Resco mobile app because now they have a system they can rely on to manage protocols and data maintenance. The Resco app allows them to focus on what truly matters – servicing life-saving equipment.”

Norman Rothe, Head of CRM at Dräger

Speed up documentation of service work

Quicker data synchronization

Increased employee & customer satisfaction
