

Field Sales+

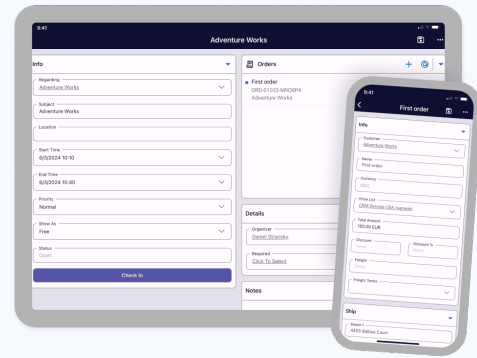

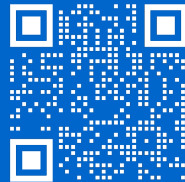

for Microsoft Dynamics 365 Sales

Maximize your sales performance on the go

A mobile solution for your Dynamics 365 Sales with reliable offline mode, fast data sync, and powerful tools for sales representatives.

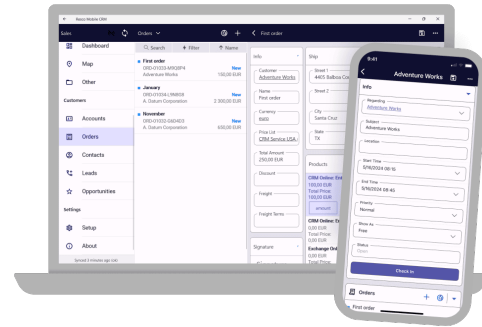

resco

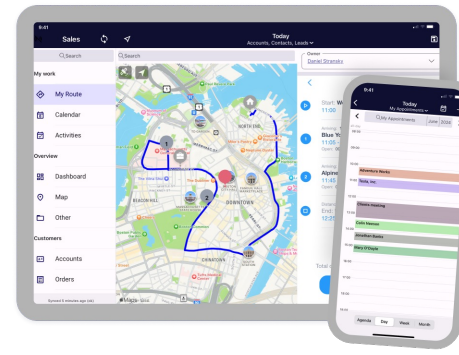

Stay efficient, even offline

Field Sales+ offers full offline access, ensuring your sales team stays productive, no matter where they are. Remote locations and connectivity issues won't stop you from accessing, updating, and collecting essential CRM data.

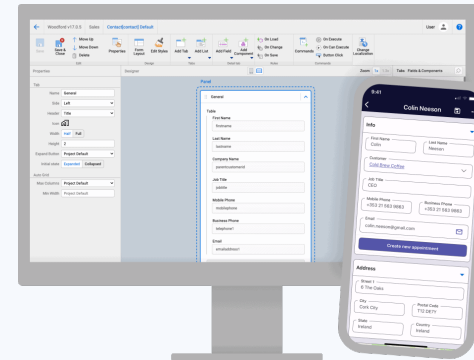

Sync data instantly and act fast

Enjoy quick and efficient data syncing to keep your CRM information up-to-date across all devices. This seamless integration ensures that every customer interaction is informed and strategic, boosting customer satisfaction.

Optimize routes and visits

Cut down travel time and reduce costs with Resco's intelligent Route Planner and Routes AI. These tools guide your sales team's journeys and optimize routes, making each customer visit more efficient.

Customize with ease

Field Sales+ offers no-code and low-code customization options, allowing your team to tailor the solution to specific business needs without extensive IT support. This flexibility ensures the platform works perfectly for your unique sales processes.

Ultimate digital package for field sales

- Route optimization
- Data dashboards
- Customer visits
- Orders & invoices
- Sales reporting
- Full offline access
- Digital signature
- Customization options
- Customer care

Southern States TOYOTALift

"Resco efficiently transformed what was often a 30-60 minute process into about 4 minutes per form. That's where it accelerated our sales velocity rapidly."

Jason Johnson, Corporate Marketing Manager at Southern States ToyotaLift.
