

Resco Power Solutions  
for Power Platform

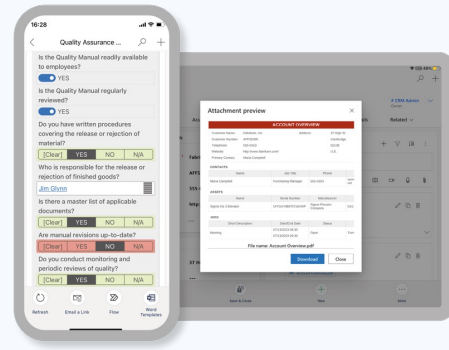

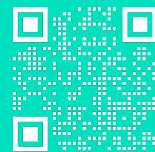

# Build business apps for frontline scenarios.

**Faster**

Implement data collection, document generation, and knowledge sharing capabilities into your Power Platform solution, all without requiring coding and ongoing maintenance.

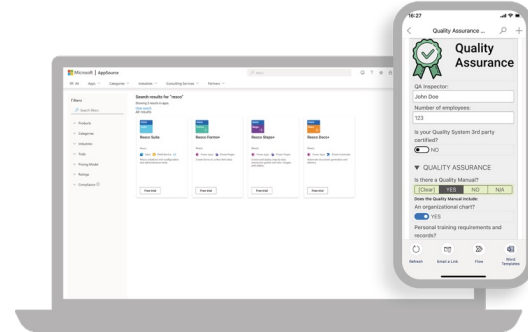

resco

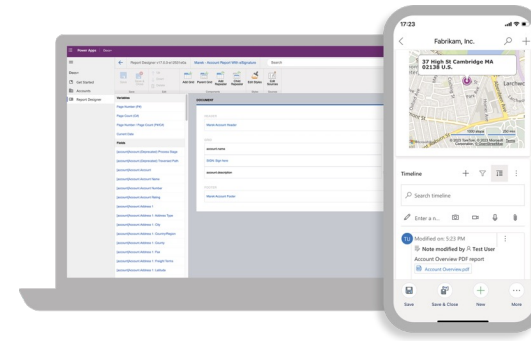

## Enhance Power Platform with advanced mobility

Level up your apps with digital forms, guides, and document automation. Take advantage of the native integration with Power Platform and utilize all its innovations including AI.

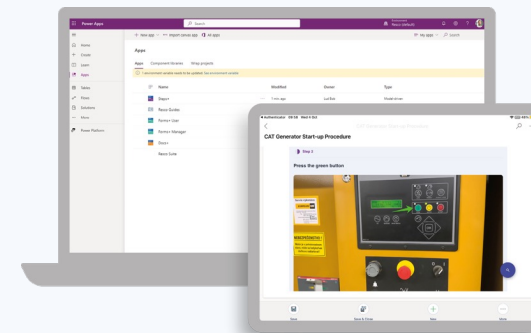

## Use what you need, row without constraints

Choose a solution relevant for your business. Make the project ready for any number of users, industries, and use cases. Add new solutions at any time, knowing they are all compatible.

## Reduce time to market, increase ROI

Use Resco Power Solutions instead of building from scratch. Save resources, speed up development and decrease maintenance costs.

## Futureproof your projects

Building in the Power Platform ecosystem means you can count on the longevity of your projects. The platform evolves with your business, and you can take advantage of the latest innovations – not only from Microsoft but also from the community of independent software vendors including Resco.
